

# SEVEN MARY THREE

Most know Seven Mary Three from their 1995 breakthrough debut *American Standard* and the iconic single "Cumbersome" which continues to receive tons of airplay on rock radio to this day. Those in the know see the band a bit differently. They are drawn to Jason Ross' powerful and often introspective songwriting, to his distinctive voice, and to an impressive catalog of Seven Mary Three songs developed over seven records and a fifteen year career.

This side of the band is captured on *Backbooth*, a new live acoustic record on Settle Up Records. Recorded in Orlando, FL at a private show for its' most passionate fans, *Backbooth* documents Seven Mary Three in its' simplest form--great songs, mostly acoustic instrumentation, and an intimate setting. In addition to classic Seven Mary Three songs ("Lucky", "Wait"), the record includes previously unreleased ("Untitled") and rare ("Don't Walk With the Devil") gems from their catalog, and a stunning cover of Otis' Reddings "That's How Strong My Love Is".

*Backbooth* will be available exclusively through the bands web site [www.7M3.com](http://www.7M3.com) on November 13th before its national release in February 2010, and fans will be able to purchase a deluxe version including bonus videos from the *Backbooth* show..
